The comments should be about 750 words long (~ three pages). Only one set of comments are needed for EACH proposal reviewed. When reviewing proposals, be sure to give specific suggestions to help your colleagues produce a better proposal. For the purpose of practice, as best you can, make your comments such that the author cannot figure out who the review is. Follow the format provided in class. In addition to your qualitative/written review of EACH proposal, also provide a quantitative assessment for EACH proposal (template will be provided). I also encourage you to make grammar corrections, either in your qualitative assessment or via track changes. Again, each review will have three components: the edited proposal (track changes), the qualitative review (your comments), and the quantitative assessment (see template from class).

The first few pages of the PDF should be the (cover) letter to the "evaluator" explicating how you incorporated the comments from the reviewers on the 1st version of the proposal (see sample provided). This second draft and letter are due on 12/3/26. Remember, the final version is due on 12/10/26.
